There are a number of a number of things which must be kept in mind to make a relationship serious and effective. Some of these aspects can blossom the relationship while others can take it down to the earth. You need to learn what to do in a relationship and what not, so that your relationship goes with trust and confidence. We are going to teach you basic lessons on how to take a relationship smoothly.

In this article, you will learn how long distance relationships can be ruined by your actions and the impact of your actions on the relationship.

### What Should You Do In a Long Distance Relationship?

- In a distant relationship, the communication channel plays a very important role.** Most of the people get confused to pick a communication channel when they have to talk to their expected life partners at the distant location. Though, telephone is one the best options we all have been using for decades, but there are modern channels available such as emails, SMS, social networking, video conferencing, dating websites and VOIP services. These services are available cheaply all over the world. So, in case of dating online, proper communication channel must be picked. **You must keep in mind one thing that dating websites and distant relationships go hand in hand.**
- It becomes difficult to communicate freely from one corner of the world to another corner due to different barriers of communications. The internet has opened lots of opportunities for the partners to manage dating online with the use of modern communication tools. Meeting face to face and talking to each other is really a dream of many of us living away from the one we want to marry, but technologies like video conferencing have facilitated lots of men and women in communication. It rekindles one's love, passion and excitement of meeting again and again.
- Engaging your partners online in games, talks and watching movies can really take two hearts near to each other while living in different locations. The online dating partners can also engage themselves in various online projects to help each other virtually.

### What Should Avoid

- Don't take your relationship just for fun and manipulate things while living at the distant location. It will be disastrous for the relationship. You should give proper time to your partner, and should treat partner truly.
- Don't engage in with two partners at a time, as it is the most common blunder made by the partners. It may risk your relationship and break with mutual trust.
- Don't listen to other people, which can create mistrust between the partners.

So, if both the partners consider these factors, then they both can take their relationship smoothly.
