### Advice for dating foreign women

If you're new to the wonders of international relationships and [dating foreign women](#), you may be worried that special characteristics are necessary for winning the heart of your favourite woman. Women from Ukraine and Russia are especially popular with western men, and even though they seem somewhat mysterious, they just want the same gentlemanly behaviour you would use to date women in your own country. Below are some tips from men who have experience in dating foreign ladies.

#### Be the Man of Her Dreams

Many women dream of their prince charming and a fairy tale romance and it certainly is true with [Ukrainian and Russian women](#). If you can be that Prince Charming that she has been dreaming about, it shouldn't be complicated to live happily ever after. Send her flowers and gifts she doesn't expect. Write a poem and read it to her during one of your phone dates. It's not necessary to have lush hair or six-pack abs to attract these beautiful women, just use your charm and sweet sentiments to allure them.

#### Don't Reveal Too Much Information

While it's certainly very important being open and honest when courting Russian or Ukrainian women online, you don't have to divulge everything. Talking about your previous relationships too often or boasting about the hot chicks you're currently seeing won't take your relationship anywhere. It will just make your online partner mad and she could lose interest very fast.

#### Have Realistic Expectations About Younger Women

It seems that as men get older, some of them only want to date younger women and there are thousands of gorgeous fresh-faced women on most online dating websites. Lucky for them, many younger women find mature men attractive too, but you need to be careful. Large age differences could cause problems, so it's important to make sure that you two share similar interests and goals to prevent your relationship from going south.

Any guy who has ever dated or married a gorgeous Russian girl will definitely agree with these dating tips. Most women are not looking for extremely rich or very handsome husbands. They care more about a man's personality than his financial or social status and they are won over by sincere men who show mature mindsets and sweet sentiments.
